Dear Mr. Yarkie:

Re: **Notice of Sufficiency (NOS)**
Industrial Storm Water (Rule 6)
NOI Submittal
Singleton Stone LLC
Hebron, IN
Lake County
Permit #: INRM01853

The Notice of Intent (NOI) letter submitted for the above referenced facility has been reviewed by staff of the Indiana Department of Environmental Management (IDEM). The NOI submittal meets the requirements of the National Pollutant Discharge Elimination System (NPDES) general permit rules for storm water discharge associated with industrial activity (327 IAC 15-6).

A permit number is assigned to each facility that has submitted an NOI to comply with 327 IAC 15-6. This number is used as an identification number and should be included with any future correspondence submitted to IDEM. The general permit number assigned to this facility is: **INRM01853**.

Permittees can now manage their permit on-line, including permit amendments, renewals, terminations, and exclusions (i.e. no exposure) through the Regulatory Service Portal (RSP). The RSP may be accessed at <http://www.idem.IN.gov/5964.htm>.

A permit issued under 327 IAC 15-6 is valid for a period of five (5) years from the date IDEM receives the NOI letter. This facility has a permit start date of **June 29, 2015**. The permit start date is the date the permit is effective at your facility and will establish the schedule for the submittal of all required elements specified in the Rule.

It is important that all activities associated with your facility are in compliance with the requirements of 327 IAC 15-6 (Rule 6). The following are dates, based on the permit start date for which information is to be submitted to IDEM.

1. A Storm Water Pollution Prevention Plan Checklist (State Form 51287) of the general permit rule must be submitted no later than three hundred sixty-five (365) days from **June 29, 2015**. The submittal of a checklist is required for all initial and renewal NOI letters.
2. An Industrial Storm Water Discharge Monitoring Report (State Form 53590) shall be submitted annually. Permit year one (1) storm water discharge monitoring report must be submitted no later than three hundred sixty-five (365) days from **June 29, 2015**. Please refer to 327 IAC 15-6-7.3 for guidance on the required information to be included with your analytical results submittal.
3. An Annual Report (State Form 54185) shall be submitted annually to IDEM containing information from the previous year of regulation. Permit year one (1) annual report must be submitted no later than three hundred sixty-five (365) days from **June 29, 2015**.

For additional information related to permit requirements, please refer to 327 IAC 15-6 and the storm water program website at <http://www.in.gov/idem/stormwater/>. Program forms are available on the program website or on the Forms Page at <http://www.in.gov/idem/5157.htm> (Scroll to the bottom of the page, the forms are listed under the heading Storm Water and Wetlands).

The General Permit issued for the above referenced facility will expire on **June 28, 2020**. Permittees who continue to operate shall submit a renewal NOI letter not less than ninety (90) days prior to the expiration date.

Any questions regarding this letter may be directed to **Heather Winebrinner, Storm Water Permit Coordinator at 317-233-1864 or 800-451-6027, extension 1864 or through e-mail at HWinebrinner@idem.IN.gov**.

Sincerely,

Randy J. Braun, CPESC, CMS4S
Section Chief
Storm Water and Wetlands
